

1. Introduction

With the continued development of the internet and the use of personal technological devices, such as mobile phones, lap-tops and iPads, it became evident that the younger generation of women we were teaching were looking for an electronic means of keeping a chart that was in line with this. Fertility Pinpoint™ is a web-based system that allows a woman to record her fertility symptoms according the Billings Ovulation Method® and to share her chart with an accredited Billings teacher. Now in 6 languages- English, French, Italian, Spanish, Portuguese, Vietnamese.

- Developed for WOOMB International and The Ovulation Method Research and Reference Centre of Australia Ltd. (OMR&RCA) by Damien Sawyer and Damien Burger (DaD Digital)
- Official use of Fertility Pinpoint™ began in May 2014
- Through working with this system, it soon became evident that there was a world-wide need for information about alternatives to chemical and barrier methods of contraception
- We knew that the Billings Ovulation Method® was the answer to many of these requests and with Fertility Pinpoint™ we also had the means to provide it
- We found the system was easy to use, reliable and able to be used in any country where the woman the internet was accessible

		Zambia
		Zimbabwe

7. Testimonials

"I just wanted to thank you so much for all you've done!! You've taught me a method that has changed my life and marriage! I couldn't be more grateful."

"Fertility Pinpoint™ provides a friendly, supportive and efficient service that I would recommend. I just wish that I had known about it sooner."

"I would like to say big, big, thank you for your patience with teaching me over the last six months or more. I am now 7 weeks pregnant and very happy. I have learned some very valuable skills which I plan to use for the rest of my life."

"Before using the Billings Ovulation Method® and the Fertility Pinpoint™ tutoring services I really had no idea how my body worked. The Fertility Pinpoint™ site is also very user friendly, and I can use it wherever I am so it doesn't interfere with my busy schedule. I personally am very glad I am using the Billings Ovulation Method®, and only wish I had started sooner!"

"... it makes sex even sexier"

"The Billings Method allowed me to move away from chemical birth controls, and I have been completely successful with this natural method of preventing pregnancy. On top of that, my fertility counsellor was a wonderful person who I enjoyed getting to know as we worked together. She counselled patience as my cycles took a while to become 'normal' after coming off of the Nuva Ring and stuck with me until they did even though it took longer than the six months of counselling I had signed up for. I would recommend the Billing Method to anyone who wants a natural method of tracking their fertility and who wants to be more in touch with their body."

8. Conclusion

By using the internet for teaching the Billings Ovulation Method®, we have found a means whereby the Method can be taught anywhere without having the expense of maintaining an office and all that it involves.

The inexpensive nature of this means of teaching would make a good case for an approach to your local Church, Council or Government representative for financial support.

With more Affiliates using Fertility Pinpoint™, the Billings Ovulation Method® can be spread even further.
